Re: Percy, et al v about 8,773 Defendants
Index # 21-cv-02194

Dear Judge Garaufis:

A client sent to me a letter received today June 8, 2021, from Mr. Kernan re: the above entitled dismissed with prejudice action, (which was not clear from his letter). My client stated they had no idea of any kind about the case, so I searched on PACER to find your dismissal order dated May 27, 2021.

As this attorney has some issues, I was not sure why he would write a letter, such as he has. If there was anything to be written to these dismissed defendants, then something simple, that the case was dismissed with prejudice, was all that was needed. Rather, he sent his confusing letter dated June 1, 2021. Counsel clearly should not ask my client, and maybe the thousands of other defendants, to contact him. No one from here or my client's office will contact him.

I am sorry to have written this, but feel I had to so inform the Court.

Respectfully submitted,

Michael B. Doyle
